# Agenda Item 7

Report to: **Overview and Scrutiny (External) Committee**

Date: **15 March 2016**

Title: **OUR PLAN REVIEW**

Portfolio Areas: **Our Plan – Cllr Sanders  
Local Plan – Cllr Parker**

Wards Affected: **All**

Relevant Scrutiny Committee: **Overview and Scrutiny (External) Committee**

Urgent Decision: **N** Approval and clearance obtained: **Y**

Date next steps can be taken:  
(e.g. referral on of recommendation or implementation of substantive decision) **Hub Committee and Council**

Author **Ross Kennerley Lead Specialist; Place and Strategy**

Contact: **01803 861379 | [Ross.Kennerley@swdevon.gov.uk](mailto:Ross.Kennerley@swdevon.gov.uk)**

## RECOMMENDATIONS

**That the Panel RECOMMEND to the Hub Committee that it RECOMMEND to Council to:-**

- (1) Note progress on the 15/16 Our Plan; Annual Activity Programme (appendix 1) and**
- (2) Adopt and publish *West Devon Our Plan* (as presented at Appendix 2) for the 16/17 Financial year as a document that**
  - Recognises *West Devon Our Plan* as the single comprehensive Council Plan**
  - Restates the Council's corporate Vision and Objectives**
  - Establishes the common basis for the Councils Financial Plan, Asset Management Plan, Local Plan and all other Plans and Strategies**
  - Establishes priorities for delivery including a delivery plan commencing in 2016/17**
  - Establishes mechanisms for delivery**
  - Establishes engagement, monitoring and review procedures**
  - Provides context for subsequent incorporation of the Local Plan element currently subject to separate preparation**

**Subject to any amendments which are to be delegated to Lead Specialist – Place and Strategy, in consultation with the Leader and Hub Lead for Strategic Planning.**

- (3) Establish a joint member working group to agree scope and details of the Economic Development work; and**
- (4) Undertake further work to identify *Key Measures* for the 8 Our Plan themes that are clear expressions of the Councils intentions and which can be measured and readily promoted. Agreement of these to be delegated to Lead Specialist – Place and Strategy, in consultation with the Leader and Hub Lead for Strategic Planning.**

## **1. Executive summary**

- 1.1 The Council has made clear its vision to enhance the quality of life for West Devon individuals and communities. *West Devon Our Plan* is the comprehensive, overarching plan that delivers this vision.
- 1,2 *West Devon Our Plan* sets out the themes and objectives that underpin this vision and draws together the mechanisms at the Councils disposal to ensure delivery. This includes use of the Councils finances, staff, Members, assets, partnerships and development & legislative powers.
- 1.3 Members have previously agreed that *West Devon Our Plan* should take stock of the work to date and focus afresh on restating the vision and objectives alongside a prioritised delivery plan. Publication of a refreshed version of Our Plan builds on work undertaken previously. The proposed republication of *West Devon Our Plan* should also provide a context for the Local Plan and allow the statutory Local Plan element to be incorporated once its formal legal process is completed.
- 1.4 This item takes stock of the existing 15/16 Annual Activity Plan. It records significant progress and successful outcomes against the actions in what has clearly been a challenging year. Some actions are completed, others are on track and need to carry forward whilst others now better lend themselves to being recognised as enduring work streams and become part of business as usual.
- 1.5 The item also proposes a refreshed delivery plan incorporating some existing actions and a series of new activities that have emerged from work with members. This Delivery Plan sets a longer horizon rather than a single year as previously. Members are asked to consider the proposed version of Our Plan and the delivery plan

## 2. Background

2.1 At Overview and Scrutiny on November 17 2015, Members considered a report relating to Our Plan. The report proposed republication of Our Plan for the start of the 16/17 year as a plan that:-

- Recognises West Devon *Our Plan* as the single comprehensive Council Plan
- Restates the Council's corporate Vision and Objectives
- Establishes the common basis for the Councils Financial Plan, Asset Management Plan, Local Plan and all other Plans and Strategies
- Establishes priorities for delivery including a delivery plan commencing in 2016/17
- Establishes mechanisms for delivery
- Establishes engagement, monitoring and review procedures
- Provides context for subsequent incorporation of the Local Plan element currently subject to separate preparation

2.2 Members supported this approach and this item presents the outcome of work that has taken place since November. Members are being asked to consider the work presented and consider promoting it for formal adoption.

2.3 Members are referred to the 17 November report for further background information.

2.4 In presenting this work there is a need to review the progress against the 15/16 Annual Delivery Plan. Appendix 1 presents an updated version of the Annual Activity Plan and identifies outcomes as follows

	Completed (or to be completed by end of the financial year)
	On target for completion with work to be carried forward
	Commenced but behind timescale
	Not commenced

2.5 Appendix 1 also identifies those targets that have become core and enduring activity. In these cases the work will migrate to "business as usual" and not be highlighted as a further distinct action.

2.6 It must also be recognised that much of West Devon Borough Council area lies within Dartmoor National Park. This generates a close working relationship between the two authorities that is carried into the West Devon Our Plan. Our Plan will stand alongside, and support, the Dartmoor National Park Management Plan.

2.7 In the general provision of services, for example waste collection, WDBC provides a direct service to residents within the DNPA boundary and thus some elements of Our Plan will have direct impacts within the DNPA area. In terms of strategic planning and production of the Local Plan both DNPA and WDBC are working closely together and are joint signatories to the Devon wide "Duty to Co-operate" that governs working relationships for Local Plans. WDBC and DNPA will be producing aligned Local Plans for the shared Housing Market Area within South West Devon.

### **3. What outcomes are required?**

3.1 Production of a single comprehensive Our Plan and supporting Delivery Plan.

3.2 A proposed version of Our Plan is presented at Appendix 2. This incorporates the following elements set out in the November recommendation.

#### Recognising West Devon *Our Plan* as the single comprehensive Council Plan

3.3 This will be covered in the Our Plan Introduction.

#### Restates the Council's corporate Vision and Objectives

3.4 These were established through public consultation and are carried forward from the previous "Regulation 19" version of Our Plan. They are presented with only limited editing and amended context in order to retain continuity with previous work. It is suggested that the single word areas of work identified be referred to as themes.

3.5 During its stages of publication and consultation the list of themes has been refined to cover.

- Wellbeing
- Communities
- Homes
- Economy
- Infrastructure
- Environment
- Heritage
- Resources

3.6 When these were presented in Our Plan they were accompanied by a list of objectives. The draft version at Appendix 2 now also includes a summary outcome for each theme. Members are asked to consider the suitability of these.

3.7 All previous consultations have highlighted the importance of delivery through partnership. This forms a key strand to delivery across the Plan and was strongly supported. This is reflected in the draft version.

Establishes the common basis for the Councils Financial Plan, Asset Management Plan, Local Plan and all other Plans and Strategies

3.8 This role of Our Plan is set out in Appendix 2. The Regulation 19 version of Our Plan established the key role of the Financial Plans and Local Plan. Other significant plans and strategies will be referenced. An example of how this will be presented in Appendix 3 and this will be completed prior to publication.

Establishes priorities for delivery including a delivery plan commencing in 2016/17

3.9 The previous version of the Annual Activity Plan included a prioritisation of actions – and concluded four priorities around Homes, Jobs, Natural Environment and Excellent Customer Services. For monitoring purposes (as at Appendix 1) the actions have been placed under the 8 Themes. In the new Delivery Plan it is suggested that actions appear under the 8 themes to better imbed the use and understanding of these.

3.10 Members sought prioritisation and a member workshop was held at Woolwell in early January. Members were invited to prioritise the 8 themes and this resulted in three distinct bandings – with Economy at the forefront.

- High Priority. Economy and Homes
- Medium. Infrastructure, Communities, Wellbeing, Environment
- Reduced Priority. Resources and Heritage

3.11 This prioritisation has been used to provide structure to the draft Delivery Plan presented at Appendix 4. Members are asked to consider this Delivery Plan and the following matters that have informed production

- The Delivery Plan is the community facing expression of the additional activities the Council proposes. It needs to talk to, and deliver for, community groups, businesses, stakeholders and individuals. It does not include T18, or LACC activities and nor does it include baseline “business as usual” activity.
- Proposed actions included in the plan are generated from elements of work we need to do and some that we might want to do including:-
  - Legal or statutory requirements to undertake specific activities;
  - Contract, tender or partnership requirements for time specific activities;

- Non statutory activities that the Council undertakes
  - Other activities proposed by members
- There is a significantly reduced range of actions. These actions seek to identify and focus on an outcome rather than merely require a process or procedure to be put in place. This introduces the use of tangible *Key Measures* for assessing progress against delivery.
  - The Delivery Plan needs to have a longer time horizon and be a living document that can flex and adapt under the steer of Members. A three year horizon is suggested initially.
- 3.12 The Delivery Plan is intended to be simple and a balance needs to be struck about providing enough detail but retaining clarity. Member's views are sought on this – in particular whether the Delivery Plan format allows clear measurement and subsequent monitoring.
- 3.13 Fundamental to success of this Delivery Plan is identification of Key Measures. Historically "progress" has been measured more generally rather than setting specific quantity or quality outcomes. If Members agree the format of the Delivery Plan and the actions within it then it is recommended that further work takes place to identify and agree clear and unambiguous *Key Measures*. These might, for example, seek to identify numbers of houses constructed, jobs supported or measures of environmental quality. Members gave some initial observations at the workshop but more work is needed to come up with ambitious measures which are directly relevant to our communities and against which we are prepared to be judged.
- 3.14 It is suggested that this work to identify *Key Measures*, and fine tune the Delivery Plan, take place with immediate effect to allow Key Measures to be included in the Delivery Plan.
- 3.15 In relation to Economy it is necessary to reflect that there is significant expectation but much of both existing and potential additional work is non statutory. Members are asked to work with officers to agree a targeted approach to Economic Development that focusses on areas of greatest impact within the context of available resources.
- 3.16 For Housing there is far more extensive existing statutory work already underway. The proposal is to look to enhance this work (see also potential housing related work in the Income Generation item) and to promote this as a strong and coherent Housing Delivery Programme.

#### Establishes mechanisms for delivery

- 3.17 The Draft version of Our Plan at Appendix 2 includes a section on how the Council intends to deliver on actions.

3.18 Actions in the draft Delivery Plan will be delivered through a range of mechanisms. These will be deployed to ensure most effective approach once the actions are agreed. They include

- Direct delivery
- Use of funding and Grants
- Members involvement
- Enforcing Legislation and powers
- Partnership working
- Liaison and influence
- Asset Management
- Locality

Establishes engagement, monitoring and review procedures

3.19 The attached draft version of Our Plan establishes a core role for Overview and Scrutiny to oversee regular monitoring and recognises the existing ability for O&S to seek review if needed.

3.20 The draft Our Plan builds in a commitment for an annual review and refresh of the Delivery Plan.

Provides context for subsequent incorporation of the Local Plan element currently subject to separate preparation

3.21 The text in the draft version seeks to clarify how this proposed publication relates to the previous version that was issued for formal consultation under Regulation 19. This proposed version seeks to step forward and re-establish the corporate context whilst allowing the Local Plan element to progress on its separately agreed process towards a Joint Local Plan. This version of Our Plan needs to strengthen the context, recognise the alternative route that the Local Plan is travelling on and retain the intention to nest the Local Plan element within Our Plan when its formal adoption is completed.

#### **4. What are the options?**

4.1 The decision to refresh and publish Our Plan in the proposed format has already been agreed. The options before members are to consider the precise scope, presentation and level of detail to be included. To inform this draft versions of Our Plan, the Delivery Plan and supporting Plans and Strategies have been produced. Issues members may want to consider when reviewing these include:

- Is this a reasonable approach to the scope, form and presentation of Our Plan for publication?
- Are the themes and objectives adequately expressed and prioritised?
- Is the Delivery Plan in an acceptable format?
- Are the Actions in the Delivery Plan appropriate?
- Do we need to better understand costs, benefits and monitoring? If so how do we do this proportionately?

## 5. Summary and conclusions

5.1 This item follows through previous decisions to republish Our Plan. There is clear opportunity to refocus and pick up momentum.

## 6. Implications

Implications	Relevant to proposals Y/N	Details and proposed measures to address
Legal/Governance	Y	<p>Our Plan is governed by a range of statutory requirements which include the following:</p> <ul style="list-style-type: none"> <li>• Localism Act 2011 (Section 1 – Powers of General Competence).</li> <li>• Town and Country Planning (Local Planning) (England) Regulations 2012</li> <li>• National Planning Policy Framework 2012</li> <li>• The Planning and Compulsory Purchase Act (2004)</li> <li>• Environmental Assessment of Plans and Programmes Regulations 2004</li> </ul> <p>Overview &amp; Scrutiny have a responsibility to assist the Council in the development of its Policy Framework and to make any necessary recommendations to the Hub Committee and Council.</p> <p>The Council is required to publish any changes to the Annual Delivery Plan</p>
Financial	Y	<p>The agreement of Our Plan and Delivery Plan will need to consider financial implications. Actions included within the plan for 16/17 are funded and budgeted for at current service delivery level – but enhanced actions may bring resource pressures. Activity for 17/18 onwards will need to be reviewed as delivery commences.</p>
Risk	Y	<p>A failure to review Our Plan and re-issue a renewed approach to the overarching plan could lead to</p> <ul style="list-style-type: none"> <li>• Lack of coherent policy and delivery</li> <li>• Reputational harm</li> <li>• Ineffective use of resources</li> <li>• Poor quality service to those in need of support</li> <li>• Inequality of delivery across the Borough</li> <li>• Failure to comply with statutory requirements and potential risk of challenge</li> </ul> <p>These risks are mitigated by</p> <ul style="list-style-type: none"> <li>• Review of Our Plan</li> </ul>

		<ul style="list-style-type: none"> <li>• Renewed Delivery Plan</li> <li>• Identification of resources to support delivery</li> <li>• Scope to integrate Local Plan as appropriate</li> <li>• Scope of opportunities for efficiencies through joint approach with SHDC</li> </ul>
Comprehensive Impact Assessment Implications		
Equality and Diversity	Y	Our Plan approach and policies imbed equal opportunities and help prevent discrimination in our communities. Equalities Impact Assessment has been undertaken and some minor issues raised about delivery of some actions. Outcomes will be fed into Delivery Plan as it progresses to Hub and Council for adoption.
Safeguarding	Y	Our Plan approach and policies imbed safeguarding measures where necessary.
Community Safety, Crime and Disorder	Y	Our Plan approach and policies support community safety and partnerships to support this
Health, Safety and Wellbeing	Y	Our Plan approach and policies include Health, Safety and Wellbeing. A health impact assessment will be undertaken of Local Plan
Other implications		None identified

**Supporting Information - Appendices:**

- Appendix 1. 2015/16 Annual Activity Plan Review
- Appendix 2 . West Devon Our Plan 2016/17. Draft.

**A delivery plan of actions underpinning the Councils objectives to support communities to have access to housing, employment, services and facilities that meet their needs, communities that are resilient, safe and able to make choices about their future.**

## Our Plan Annual Delivery/Priority Action Plan

This document sets out areas of work for 2015-2016 where the District and Borough Councils are seeking to undertake additional actions, over and above core delivery, to support local communities and individuals

The actions are grouped under the following headings identified by the two Councils for the 2015/16 Annual Delivery plan/ Priority Action Plan

- Homes
- Jobs
- Natural Environment
- Excellent Customer Services

The actions will underpin the delivery of Our Plan (and for West Devon further details are provided in the publication version of West Devon Our Plan). The actions are largely identical across South Hams and West Devon – but there are some variations and these are shown in the Plan. To paint a complete picture actions listed have been derived from the following.

- Actions from the Annual Delivery Plan/ Priority Action Plan
- Actions generated from Service delivery requirements and contract renewals

The actions will be delivered through the new working structure at South Hams and West Devon Councils and will be subject to monitoring and reporting to the Overview and Scrutiny Committees at both Councils.

The document does not include the following

- Day to day activities
- Capital programme projects
- Internal operational changes generated by T18

Progress is assessed as follows

Green	Completed (or to be completed by end of the financial year)
Light Green	On target for completion with work to be carried forward
Yellow	Commenced but behind timescale
Red	Not commenced

The table now also incorporates a further column which identifies those targets that have effectively become core and enduring activity. In these cases the work will migrate to “business as usual” activity and not be highlighted as a further distinct action.

## HOMES

- Local Homes for Local People
- Healthy, Safe and Secure housing
- Responding to Welfare Reform

Action (What)	Evidence (Why)	Method (How)	Monitor Impact (How/ Frequency)	Where	Lead	Progress
<b>Develop and adopt a range of initiatives to support wider housing need across the District</b>	<p>Emerging recognition of the need for the Council to look at enabling a wider range of housing solutions that can meet diverse needs.</p> <p>Smarter intelligence is required to understand the different requirements across the District.</p>	Undertake a review and sense check of existing intelligence on housing need and commission any additional intelligence required to review present and future priorities and develop policies that are focussed on wider housing need.	<p>Quarterly monitoring of current intelligence.</p> <p>Contracts for commissioned intelligence monitored and delivered.</p> <p>Quarterly monitoring of housing delivery and assessment of how needs being met.</p>	South Hams and West Devon	Place Making CoP	<p>Options Identified.</p> <p>Separate report to members for consideration.</p> <p>Supporting and delivering housing will be retained in 16/17 Acton Plan</p>
<b>Review and revise the Direct Lets, Bond Guarantee, deposit and rent in advance schemes</b>	External review of schemes identified scope for improvement, and changing circumstances and demand support the need for a review of service provision.	Undertake a review of existing policies to ensure meeting statutory homeless duties in an efficient and cost effective manner and update existing policies as required to better meet identified needs.	<p>Annually through the delivery plan process.</p> <p>Monitor homelessness and preventions, case studies.</p> <p>Targets set for Direct Lets: number of properties, operating costs being met through rents and fees</p>	<p>South Hams and West Devon</p> <p>Direct Lets SHDC only</p>	Housing CoP	<p>Monitoring and reviews underway with outcomes to be concluded.</p> <p>This will be taken forward as “business as usual” and incorporated into existing workstreams.</p>

			and additional income generated.			
<b>Develop and Introduce a strategic framework to encourage the return of Empty Homes into use.</b>	Whilst there are relatively low levels of empty homes, returning these to use maximises existing stock, reduces blight and attracts New Homes Bonus.	Use South Hams existing Empty Homes Strategy as the Framework to develop an approach that meets West Devon's needs.	Targets set for return of empty homes to use with an assessment of how these have met local needs.	West Devon only	Place Making CoP	Policy to be confirmed.  This will be taken forward as "business as usual" and incorporated into existing workstreams.
<b>Develop a strategic approach for reducing fuel poverty</b>	Increasing Fuel Poverty levels adversely affecting health and wellbeing of residents. Market led delivery of Government initiatives not benefitting rural communities.	Consolidate existing local (Council and Community) policy initiatives and identify, and fill where feasible, any gaps in support or activity.	Develop measures to assess outcomes using emerging monitoring framework.  Set targets for interventions and review how measures are making inroads into reducing fuel poverty.	South Hams and West Devon	Place Making CoP	Programme established.  This will be taken forward as "business as usual" and incorporated into existing workstreams.
<b>Work with Devon County Council, Districts, statutory agencies and voluntary sector partners to understand and mitigate the impact of welfare reform changes on local people and build financial resilience: Using Local Discretionary</b>	Welfare changes will require those on low incomes and/or benefits to better manage their own finances to ensure they are able to meet bills and priority commitments.  With the reduction or removal of the Local Discretionary Welfare Support funded by	Bringing together key public sector and voluntary and community sector partners to map current advice and provision and develop a robust referral framework and monitoring process.  Train officers to provide initial advice to assist those struggling to maintain tenancies and pay priority bills, referring on to more specialist agencies if necessary.	Quarterly measures and annual reporting on interventions, financial gains, debts managed and case studies.  Develop measures with partners to assess outcomes using emerging monitoring framework.	South Hams and West Devon	Housing CoP	Extensive work underway with partner for roll out of Universal Credit.  Local Discretionary Welfare funding ends on the 1st April

<p><b>Welfare Support remaining funding to train officers in first line debt advice; Utilising the Devon County Council Community Impact Fund to support the Third Sector organisations that assist people with welfare issues; Supporting an Action Research project with voluntary and community sector organisations who support people through welfare issues to look at effective activity</b></p>	<p>Government there will be less access to emergency funds so better signposting and money management will be crucial to financial sustainability.</p>				<p>Partnership options to be reviewed as part of overall Partnership review (esp work with CAB)</p> <p>This will be taken forward as “business as usual” and incorporated into existing workstreams.</p>

# 1. Introduction

## What is Our Plan?

- 1.1 Our Plan brings together the long term strategic ambitions for West Devon into one place. It is the high level and comprehensive strategic corporate plan that sets out the vision for West Devon and the longer term objectives for the Borough.
- 1.2 Our Plan is written for our communities and focused on serving, and providing services for, these communities. At the heart of Our Plan is the Council's Delivery Plan, which is directly informed by the vision and objectives. Establishing a clear vision and objectives, allied to a robust Delivery Plan, enables clear and consistent service delivery and effective commissioning decisions.
- 1.3 Our Plan is informed by evidence of local needs and the plans of partners, towns and neighborhoods. It has been prepared following extensive engagement and consultation with communities, businesses, stakeholders and partners.
- 1.4 In February 2015 the Council published an initial version of Our Plan. In Chapter 3, the document set out the Council's overarching Vision, Themes for action and Objectives. In Chapters 4 to 12, it focused purely on setting out the draft of the statutory "Local Plan", establishing draft planning policies and development site allocations (excluding the parts of West Devon within Dartmoor National Park). This was published as the formal "Regulation19" version of the Local Plan.
- 1.5 The Council received a wide range of responses to this formal consultation. Many of these were very supportive and there was much praise for both the format and content of Our Plan.
- 1.6 The general vision, themes and objectives gained clear support. However some specific concerns were raised about the evidence being used to support Housing numbers and whether Our Plan fully embraced the need for co-operative cross border planning. In light of these comments, and the significant changes to planning emerging nationally, West Devon Borough Council has resolved to progress the Local Plan element of Our Plan as a Joint Local Plan with

South Hams District Council and Plymouth City Council.  
This will also include close collaboration with Dartmoor National Park Authority and Devon County Council.

- 1.7 This Joint Local Plan work will now progress to a timetable to be agreed between the three Councils, and will be subject to separate production and consultation. This Joint Local Plan work doesn't, therefore, form part of this current version of Our Plan but will progress alongside.
- 1.8 The version of Our Plan presented here restates the Council's Vision, themes for action and Objectives and sets out key activities in a Delivery Plan. It will establish how the Council will deliver these activities and set out measures to assess success.
- 1.9 It must also be recognised that much of West Devon Borough Council area lies within Dartmoor National Park. This generates a close working relationship between the two authorities that is carried into Our Plan. Our Plan will stand alongside, and support, delivery of the Dartmoor National Park Management Plan.
- 1.10 In the provision of services, for example waste collection, WDBC provide services directly to residents within the DNPA boundary. In terms of strategic planning and production of the Local Plan both DNPA and WDBC are working closely together and are joint signatories to the Devon wide "Duty to Co-operate" that governs working relationships for Local Plans. WDBC and DNPA will be producing aligned Local Plans within the shared Housing Market Area within South West Devon.

## 2 The West Devon Vision

### What is the West Devon Vision?

2.1 The Council has adopted the Vision set out below. This vision, with supporting text, was included in the February 2015 consultation. In light of support for this vision it continues to underpin the work of the council.

#### 2.2 *Thriving Towns and Villages*

*Enhancing the quality of life for individuals and communities*

*Through Our Plan we are striving to achieve communities that have access to housing, employment, services and facilities that meet their needs, communities that are resilient, safe and able to make choices about their future. Our communities are places where businesses can develop and grow.*

*We want to ensure Our Plan makes a positive contribution to the equality, fairness and wellbeing of our communities.*

# 3. The Themes and Objectives

## What are the Themes & Objectives?

3.1 In the February 2015 version of Our Plan the Council set out key themes and objectives that had emerged from the earlier consultations. These themes, and the objectives they included, have found support in response to the 2015 consultation and are repeated below as the underpinning basis for all Our Plan work.

3.2 Each theme also now has a single, simple, introductory line to highlight the outcome the Council wishes to support..

**3.3 Economy - Creating places for enterprise to thrive and business to grow**

- To facilitate a supportive economic environment for employment and productivity growth that is sustainable in the long term
- To develop a deep understanding of local business needs to inform strategic working and maximise funding opportunities
- To support and promote the role of town centres by encouraging development which ensures they remain attractive and vibrant destinations

**3.4 Homes - Enabling homes that meet the needs of all**

- To enable the delivery of an appropriate level and range of housing to meet differing needs
- To ensure that the current housing stock is healthy, safe and secure supporting independent living and reducing fuel poverty

**3.5 Infrastructure - Securing the services and facilities that meet the needs of our communities**

- To work with Partners and agencies to provide appropriate infrastructure alongside development so that communities are supported by access to key services and facilities
- To improve access to high speed internet services and mobile communications
- To improve provision and access to transport services
- To improve access and provision of open space, sport and recreational facilities

### **3.6 Communities -Empowering residents to create strong communities**

- To facilitate growth in a sustainable way that meets the needs of local communities
- To empower communities to make their own choices about services and future growth options and the delivery of services
- To plan for the long term development needs of our communities in a way which preserves West Devon as a special place to live, work and visit

### **3.7 Wellbeing - Supporting positive safe and healthy lifestyles**

- To work with partners and agencies to deliver positive health and wellbeing outcomes for communities and individuals with a focus on reducing health inequalities and social isolation.
- To ensure local people have access to housing, employment, services, facilities; and activities that improve health outcomes and promote healthy lifestyles.

### **3.8 Environment - Protecting, conserving and enhancing our built and natural environment**

- To protect and enhance the special high quality landscapes of West Devon
- To conserve and enhance internationally, nationally and locally designated areas
- To protect and improve the biodiversity, wildlife and habitats of West Devon
- To seek to place development in areas of low flood risk
- To reduce the risks from pollution by finding ways to address and mitigate against known impacts

### **3.9 Heritage - Celebrating our past and protecting our heritage for the future**

- To protect, enhance and promote the heritage assets within West Devon

### **3.10 Resources - Promoting energy efficiency and more effective use of our natural resources**

- Make a significant contribution to meeting national carbon reduction targets
- Using good design to maximise energy efficiency in new buildings
- To contribute to the national drive to increase renewable

energy generation

- To reduce fuel poverty
- To work with communities to help develop community energy projects

3.11 These themes and objectives are well founded in long established Council work and the Our Plan consultations. As the Council embarks upon the Joint Local Plan it will test these afresh and seek further community views. It may be that this further work adapts or amends the themes – and if so this will be reflected in further versions of Our Plan.

3.12 The previous consultations on Our Plan have included a specific reference and role for Partnership working as core to the delivery and success of Our Plan. This recognised that work through partnerships is both a mechanism for delivery but also an objective in its own right given the ability of our community partners to bolster and support strong and resilient communities. Work through Partnerships continues to underpin delivery of Our Plan.

## 4. The Overarching Role

### The role of Our Plan?

- 4.1 Achievement of the vision and the themed objectives form the basis for all Council activities. The Council will increasingly use the 8 themes in assessing what work should be undertaken and what priority should be given to the work.
- 4.2 Our Plan has a close relationship with all other **Plans and Strategies**. The delivery of Our Plan, through the Delivery Plan, will be underpinned by the Councils strategies, policies and internal workings to ensure delivery of the Councils vision of

#### ***Thriving Towns and Villages***

##### ***Enhancing the quality of life for individuals and communities***

- 4.3 The visions and themed objectives are also core to all other Plans and Strategies. The majority of these are produced to meet legislative requirements, so will initially need to address the legal requirement, but in all cases they will be produced with the vision and themes in mind and seek, wherever practicable, to support them. A (Draft) schedule of these linked Plans and Strategies is presented at Appendix 3.
- 4.4 The Council is ambitious to use the limited resources it has to go beyond basic delivery of legal requirements so it can provide additional, and enhanced, delivery of the vision and themed objectives. This comes at a cost, and the Council needs to consider carefully what ability it has to step beyond the legal minimum – however the Council wishes to introduce a **Delivery Plan** that targets additional activities to support communities, businesses and individuals. This is covered in Chapter 5.
- 4.5 The other primary opportunity for the Council to promote the vision and objectives is through its role in **Partnerships**. The Council is involved in many partnership arrangements that deliver social, economic and environmental benefits. These are currently being reviewed with an intent to seek maximum benefit, in particular in assessing their delivery against the vision and themes.

# 5. The Delivery Plan

## What will it do?

5.1 Councilors have given careful consideration to the views of their communities following the consultations and have looked at prioritising the themes so that actions can be targeted where they will have greatest effect. The following priorities will underpin the Delivery Plan

High Priority. Economy and Homes

Medium. Infrastructure, Communities, Wellbeing, Environment

Low. Resources and Heritage

5.2 The Delivery Plan includes a range of activities that the Council has a need to undertake (for example production of the Local Plan and the review of waste services) as well as areas with more discretionary work that Councillors wish to see supported on behalf of their communities (for example Economic Development)

5.3 The actions in the Delivery Plan focus on an outcome rather than merely require a process or procedure to be put in place. This introduces the use of tangible *Key Measures* for assessing progress.

5.4 The Delivery Plan needs to be a living document that can flex and adapt under the steer of communities and Councillors. The Delivery Plan incorporates the ability to review and amend actions along the way.

## 6. Ensuring Success

### How do we measure delivery?

- 6.1 The Delivery Plan will be monitored regularly by the Councils Overview and Scrutiny Committee. There will be regular monitoring during the year followed by an annual review of the actions. At this point existing actions might be deleted (if works are complete) or extended and new actions might be introduced. The committee will need to ensure that resources are adequate to deliver the work and that resources are used effectively. The committee holds public meetings that can hear from any interested group or individual.
- 6.2 The Council will use a range of approaches to ensuring effective implementation of the Delivery Plan (and indeed to delivery of all Council work). This will include the following approaches
- Direct delivery
  - Use of funding and Grants
  - Members involvement
  - Legislation and powers
  - Partnership
  - Liaison and influence
  - Asset Management
  - Locality

# 7. What Next?

## Moving forward.

- 7.1 West Devon Borough Council has taken strong and positive steps to deliver effective services to its local communities and to secure these for the long term. The internal restructure and move toward a Locality based team structure underpins this approach. This has included
- Working closely with South Hams and other partners
  - Transforming services
  - New IT and mobile working
  - Increased partnership working
  - Improved range of self service options
- 7.2 Through this transformation the focus on community delivery remains.
- 7.3 The publication of this version of Our Plan embeds the Councils Vision and themed objectives. These will guide all the Council work and be the benchmarks against which the Council will be judged. The Council will undertake regular monitoring of Our Plan and the delivery plan and report progress
- 7.4 Our Plan itself will need to flex and may require subsequent review – not least as the Local Plan progresses and reaches a stage when it is adopted and establishes the plan led basis to housing and employment development.
- 7.5 Further details about Our Plan and the Delivery Plan can be found online at (details to be completed)
- 7.6 Any comments or observations on Our Plan and the Delivery Plan can be forwarded to (details to be completed)

## Our Plan – Significant Plans, Strategies, and other documents. Version 1 March 2016.

Our Plan is the Councils single, comprehensive. Strategic Plan. It takes an overarching role in drawing all Council activity together.

It is recognised that under the umbrella of Our Plan there is a need to produce and implement a range of other Significant Plans, Strategies and other documents. The Council will look to minimise and harmonise these other Plans, Strategies and other documents wherever practicable.

This schedule is produced to support publication of the 2016/17 Our Plan. It will be kept under review and be re-issued annually. The Plans, Strategies and other documents are grouped under the Council Service areas with the requirement that production and implementation of these lie with the Lead Specialist in that area.

*Example Presentation – other service areas to be completed*

<b>Strategy and Commissioning (Including Legal)</b>					
<b>Title</b>	<b>Purpose</b>	<b>Legal, or other requirement</b>	<b>Adoption Date</b>	<b>Form of Adoption</b>	<b>Review Date</b>
Constitution	Roles, responsibilities and delegation procedures	Local Government Act 2000 requirement to annually adopt an up to date Constitution	May Annual Council Meeting	Via Audit Committee recommendations (April meetings)	January / February annually to inform the Council's processes and /or as necessary
Our Plan	Corporate Plan establishing Vision, objectives and priorities	Localism Act 2011 (Section 1 – Powers of General Competence).	March/ April Council	Via Overview and Scrutiny and Hub	Jan / Feb
Our Plan Delivery Plan	Activity Plan	Localism Act 2011 (Section 1 – Powers of General Competence).	March/ April Council	Via Overview and Scrutiny and Hub	Jan / Feb

Financial Procedures		Included within the Constitution – recommended for review during 2016/17	As for Constitution		
Contract Procedures		Included within the Constitution – recommended for review during 2016/17	As for Constitution		

Finance					
Title	Purpose	Legal, or other requirement	Adoption Date	Form of Adoption	Review Date
Data Protection Policy	To ensure that the Council complies with the requirements of the Data Protection Act	Data Protection Act	September 2015 (both Councils)	Hub / Executive	Every three years or as required
Corporate Enforcement Policy	To ensure that the Council applies a transparent, proportionate and consistent approach to its enforcement responsibilities	Various legislative requirements (eg EH, planning, commercial services)	December 2015	Hub/ Executive to Council	Every three years or as required

Housing , Revenues and Benefits					
Title	Purpose	Legal, or other requirement	Adoption Date	Form of Adoption	Review Date
Corporate Debt Policy	To set out the way in which the council will deal with any debt owed to them	Best practice, transparency	TBA		

Homelessness Strategy	To set out the aims of the Council for preventing homelessness	Legal requirement of the 2002 Homelessness Act	TBA		Annually but Strategy will run from 2016-2020
Allocations Policy	To set out the way in which affordable housing will be allocated in the area	Best practice			
Safeguarding policy	To set out the Council's objectives in dealing with safeguarding	Best practice (some of which is legal, but not a requirement to have an actual policy, just to do the things we say in a policy?)			
Council Tax reduction and discount policy	Our local discretionary scheme to safeguard those individuals who cannot pay their council tax	Legal requirement to have a discretionary scheme

**Our Plan – The Delivery Plan**

**2016/17 onwards**

**Overview and Scrutiny Review. March 2016**

**Page 45**

**A delivery plan of actions underpinning the Councils objectives to support communities to have access to housing, employment, services and facilities that meet their needs. A plan that supports communities that are resilient, safe and able to make choices about their future.**

## Our Plan - The Delivery Plan

This Delivery Plan sets out actions for 2016- 2017 and beyond. It establishes what the District and Borough Councils will do, over and above day to day delivery, to support local communities, businesses and individuals. The actions are grouped under the following Our Plan objectives identified by the Councils.

### High Priority

**Economy** - Creating places for enterprise to thrive and business to grow

**Homes** - Enabling homes that meet the needs of all

### Medium Priority

**Infrastructure** - Securing the services and facilities that meet the needs of our communities

**Communities** - Empowering residents to create strong communities

**Wellbeing** - Supporting positive safe and healthy lifestyles

**Environment** - Protecting, conserving and enhancing our built and natural environment

### Reduced Priority

**Heritage** - Celebrating our past and protecting our heritage for the future

**Resources** - Promoting energy efficiency and more effective use of our natural resources

The actions will underpin the delivery of Our Plan and they emerge from community, business and individual feedback under the guidance of Councillors. These actions pick up, and drive forward, earlier delivery plans and provide a continued ambition to support strong communities. The actions are largely identical across South Hams and West Devon – any variations are shown in the Plan.

The actions will be delivered through the new working structures at South Hams and West Devon Councils and will be subject to monitoring and reporting. The Overview and Scrutiny Panels at both Councils will keep the Actions under regular monitoring and review.

The Delivery Plan does not include the following

- Day to day activities
- Internal operational changes generated by T18

Progress on the actions will be assessed as follows

	Completed (or to be completed by end of the financial year)
	On target for completion with work to be carried forward
	Commenced but behind timescale
	Not commenced

**Economy - Creating places for enterprise to thrive and business to grow**

---

**RECOMMENDATION:**

- 1. To receive an update and have the opportunity to comment on the work carried out by the Council and its partners in the area of Public Health and Wellbeing; and**
- 2. To support the establishment of a Public Health Working Group with its remit being to identify and deliver actions under the Health and Well Being theme of the Our Plan Delivery Plan.**

**1. Executive summary**

- 1.1 Health and Wellbeing is a priority of the Council identified in the Councils Our Plan strategy. In February 2015 members asked for an annual update report on work undertaken in 2015/16 to be presented to the Committee
- 1.2 This report also recommends the future approach to health and wellbeing work at the Council and in particular the setting up of a

Public Health Working Group to monitor and review progress under the Health and Well Being theme of the Our Plan Delivery Plan.

- 1.3 Public Health is a statutory responsibility of the County Council but the district supports the County in this function by delivering many services that impact on health including ; leisure, development, housing conditions, homelessness prevention , fuel poverty , food safety, community safety and water quality for example. In recent years Devon County Council has provided grant funding to District Councils to commission a number of health interventions.
- 1.4 The Our Plan delivery plan for 2015/16 contains an action that the Council will set up a Public Health Working Group to develop the strategy for health and wellbeing.
- 1.5 This report recommends setting up this group to monitor and review actions from the Health and Wellbeing theme of the Our Plan delivery plan.
- 1.6 The Council has received funding from Devon County Council over the last three years to enable the Council to commission various health intervention programmes aimed at addressing key local public health priorities. This report provides a summary of these interventions, updating Members as requested following a previous report in February 2015.

## **2. Background**

- 2.1 In 2013/14 Devon County Council allocated a total of £40,000 grant over a 3 year period to all District Councils in Devon to enable them to achieve the following:
  - To undertake specific public health focussed work locally to help people live healthy lifestyles, make health choices, and to reduce health inequalities.
  - To make improvements in wider factors that affect health and wellbeing and health inequalities.
- 2.2 The funding was specifically for new public health activity and was not permitted to be used to fund existing work. The following Projects below have been allocated funding from the Councils Public Health Fund.

- 2.3 Please see the table attached to this report that provides a summary of West Devon funded interventions.
- 2.4 The projects are at various stages of delivery and have all been assigned funding based upon a detailed application submission.
- 2.5 The funding process changed for year 2015/16, instead of allocating funding to each of the Devon authorities a pot of £80,000 was agreed to be shared between Devon's local authorities. The projects that were designated funding are shown below. An update regarding the outcome of the interventions may be provided once the Projects have progressed further.

**Mental Health Toolkit-** a mental health awareness course (aimed to aid starting conversation) and a web-based toolkit for frontline staff.

**Physical Activity** – a series of initiatives aimed at getting new mums active through supported bike rides.

**Air Quality** – a project aimed at reducing traffic emissions from commercial vehicle fleets by promoting the Eco stars initiative.

**Fuel Poverty** - supports the district-wide fuel poverty initiative overseen by the Cosy-Devon group. The Central Heating Fund is for households currently not connected to mains gas or without central heating.

- 2.6 Devon County Council have informed the District Councils that there will be no further funding for Districts in 2016/17.

### **3. Outcomes/outputs**

- 3.1 The outcomes of the Projects that have been summarised above and in the attached table need to continue to be measured and reviewed. The success of the projects should focus the direction of future public health work.
- 3.2 There are a number of areas of work carried across the Council that have an impact on public health. These areas need to be drawn together to ensure a co-ordinated approach.
- 3.3 Although there will be no funding available from Devon County Council to commission new projects it is hoped that a co-ordinated approach across the Council, coupled with a continuation of the contacts established over the last three years, will enable the Council to provide a number of positive health and wellbeing related outcomes to its residents.
- 3.4 The monitoring and review of these outcomes will be an important

part of ensuring that we are delivering maximum benefit to our local communities. This will form part of the Our Plan Delivery Plan reporting.

- 3.5 The role of the Council's Public Health Working Group should be to continue to develop a public health and wellbeing strategy, targeting interventions, co-ordinating action across the Council, working with key partners to develop opportunities and identify funding and to monitor and review existing interventions and projects.
- 3.6 The health and wellbeing theme of the Our Plan delivery plan will continue to be influenced by the Devon Health and Wellbeing Board, the Devon Joint Health and Wellbeing Strategy and the Devon Joint Strategic Needs Assessment.

#### **4. Options available and consideration of risk**

- 4.1 The Council may choose not to set up a Public Health Working Group. The risk of not doing so would be that activity continues that has an impact on public health, but would not be as effective as it would not be co-ordinated or focussed on the health priorities of the local area. The impact of this would be that we would not be making the most use of the resources that we have, partnership and funding opportunities may be missed.
- 4.2 Members agreed as part of setting the Our Plan strategy that public health and wellbeing was a key activity for the area and that it needed to be coordinated across the Council.

#### **5. Proposed Way Forward**

- 5.1 It is proposed to set up the Public Health Working Group across West Devon and South Hams with a clear remit to monitor and review progress with the Council's Public Health and Wellbeing Our Plan delivery plan.
- 5.2 This fits with the Our Plan priority of public health and wellbeing
- 5.3 The positive impact of this work will be to improve public health and wellbeing, focussed on the priority issues in the Council's area. This will co-ordinate the existing work of the Council and benefit from well-established partnerships. The Working Group will also provide a link to the strategic Devon Health and Wellbeing Board that promotes the integration of health, social care and public health.

## 6. Implications

Implications	Relevant to proposals Y/N	Details and proposed measures to address
Legal/Governance		Devon County Council has a statutory duty for public health in Devon. The District Council supports this work through a number of work areas, some statutory, and has a general duty to co-operate.
Financial		The public health grant previously provided by the County council will cease in 2016/17. The funding has supported interventions provided by external organisations. The funding did not contribute to WDBC or SHDC staff salaries or any "business as usual" activity of the Councils.
Risk		The main risk to the Council would be a failure to improve the public health and welfare of its residents and not seizing the opportunity to coordinate and focus its public health activity into the areas of most need.
Comprehensive Impact Assessment Implications		
Equality and Diversity		There are no equality of diversity issues in this report
Safeguarding		There are no safeguarding issues
Community Safety, Crime and Disorder		Community safety is an area of work that falls into the wider Public Health and Wellbeing remit
Health, Safety and Wellbeing		Public health and wellbeing is the main focus of the report
Other implications		None
