

Measure	Target	Explanation
Overall waste recycling rate %	55%	A combination of recycling, re-use & composting for household waste. A self-set stretching target based on historic collection rates and current ambitions
Residual waste per household	92kg/qtr	The residual waste left after recycling and re-use. Equivalent to c.14kg per fortnightly collection per household
Avg number of missed bins	<75 per 100,000	Recently changed calculation. Previous counted all possible collections, now assume a 70% rate for presenting recycling and hence a lower number of possible collections
<i>*Average Call Answer Time No longer captured</i>	<i>1 min</i>	<i>Additional information captured in CST Dashboard but overall figure not collated. Individual areas have % of calls answered in 5 minutes</i>
<i>*% of enquiries resolved at first point of contact: No longer captured</i>	<i>60%</i>	
% of calls answered	80%	Target set at this level as we would expect some calls dropped as customers choose to follow recorded message recommendations, automated payments and submit requests online rather than hold on the phone
% of calls answered in 20 secs	50%-80%	A goldilocks measure that captures how much time CST have without a queue. Being too high would signify over-resourcing
% calls answered in 5 minutes	70%	New measure added to capture long waits.
% of Applications determined within time frame Major	60%	Statutory performance measure target
% of Applications determined within time frame Minor	65%	Old statutory performance measure target
% of Applications determined within time frame Other	80%	Old statutory performance measure target
Avg End to End time Benefits New Claims	24 days	Time for processing new claims
Avg End to End time Benefits Change of circumstances	11 days	Time for processing changes to existing claims
% of nuisance complaints resolved at	90%	Handling nuisance complaints informally saves time and money and

informal stage		often provides a more satisfactory outcome for all involved
Avg days short term sickness/FTE	1.5days/qtr	Private sector average of c.6 days/year, Public sector average of c.8 days has informed this initially stretching target. Agile working has had a very positive impact on sickness as people feeling under the weather have remained at home, working and reduced the likelihood of transfer of communicable infections to colleagues.
Complaint response speed	30 days	Time to respond to a Level 1 complaints
<i>T18: Programme timescales on track</i>	<i>Against Plan</i>	Superseded
<i>T18: Performance vs. Budget</i>	<i>Under/over spend</i>	Superseded
<i>T18: No. of Processes live</i>		Superseded
Ratio of web/call-post-email submissions (W2)	20% increasing over time	Ratio for customers calling vs self-servicing using integrated processes online. Customers currently fill in online forms but this then requires input into our systems. The new integrated approach inputs directly to our system and routes work where needed. Initially requires creation of account before first submission so expectation of slight drop off in ratio to begin with and then increasing as more customers sign up. Communication initiatives will be coordinated at key times during the year, for example, with annual council tax bills to drive sign ups so a stepwise increase in submissions is expected.
Ratio of benefit new claims web/post submissions (IEG4)	60%	Ratio of submissions via the new IEG4 portal
Ratio of benefit change of circumstances web/post submissions (IEG4/DHP)	25%	Ratio of online submissions via the new IEG4 portal and webforms
