Ward Members: The Ward Members outlined the important contribution to the Conservation Area made by this particular dwelling, which was rumoured to be a link to the Merch family, thereby increasing the Heritage value of the property and its design. The hip rooves were Edwardian and enhanced the perception of space between the neighbouring properties. Massing and bulk would be contrary to the Conservation Area plan.

Debate: During the debate, several Members agreed with the views of the local Ward Members in that the proposed changes would be detrimental to the Conservation Area and would impact greatly on the appearance of the streetscene. Some Members felt that it would be a shame to lose such an iconic Edwardian building, with the proposed changes impacting adversely on the scale, design, and character of the building and street.

Recommendation: Conditional approval

Committee decision: Refusal
