Performance Report

Executive summary

- 1.1. Performance measures for Quarter 3 have stayed relatively consistent with the previous quarters with continued small improvements building on earlier successes.
- 1.2. Q3 performance had no measures at 'Red'.
- 1.3. Issues with Devon County data collection means recycling figures are not available for the whole quarter, more detail and most up to date figures are available on the online dashboards. Information we have about these measures are in the exception report (Appendix B)
- 1.4. Planning determination performance in Q2 was above target for all types of applications for the fourth successive quarter.
- 1.5. New dashboards have been developed to display information in an easy to understand way.
- 1.6. These are available online from any web-enabled device and can be used to monitor performance in between the O&S reporting cycle. There is a regular update of the previous month's figures that occurs by the 3rd Wednesday of the month, for SLT to keep on top of performance issues.

2. Background

- 2.1. The current set of indicators came from a review of all Performance measures which was undertaken by a Task & Finish Group. The format has changed to allow better viewing in black & white and to include target information to provide context.
- 2.2. The balanced scorecard had four areas including information about the T18 Programme. The programme has moved past the active project management phase so these measure are less informative and new measures will be developed possibly focusing on website transactions and uptake or online services.
- 2.3. The new web-based performance dashboards provide monthly up-to-date information to provide context against the report that comes to Committee and gives access to a much larger range of data if desired.
- 2.4. Dashboards available are: O&S, Planning (inc enforcement), complaints, SLT Monthly Measures, and CST, to cover a wide range of council information.

3. Outcomes/outputs

- 3.1. **Appendix A** is the balanced scorecard – this contains the high level targeted performance information.
- 3.2. **Appendix B** is an information and exception report. This contains the data only performance information for context and the detail of the targeted measures which have fallen below target in the quarter being reviewed.

Performance Report

3.3. **Appendix C** contains the description of the targets chosen for the Balanced Scorecard

3.4. Covalent Dashboards are accessed via a web-link and users have access to more than one dashboard. All the dashboards can be 'drilled into' for more information and they can be viewed on any web-enabled device, smartphone or ipad.

4. Options available and consideration of risk

4.1. O&S reporting could be dealt with completely through dashboards or in conjunction with reports, with the report element focusing on other areas such as management comments rather than data.

5. Proposed Way Forward

5.1. Feedback from Members is encouraged to improve dashboard usability and usefulness to aid Members fulfil their scrutiny role. Further training sessions will be organised and communicated through the Member bulletin.

5.2. The fourth 'area' of the balanced score card focuses on web uptake and processes

6. Implications
