Cornwood donation box Provision of an alms box and signage to encourage users to donate towards the costs of running the public loos in the village to make them more sustainable. A 'Just Do It' small grant to enable a group of local community volunteers to create a small community landscaped garden area to improve the public space in Bittaford adjacent to the main road and bus shelter. A project to provide a new bus shelter for the residents of Bittaford. The current bus shelter has rusted through and the local community has been pressing for a replacement as part of its drive to enhance the village, the works will be undertaken by DCC highways. The bus service is frequent and well-used, and a new bus shelter would benefit the whole community. The provision of additional play equipment for Bittaford Playpark. The playpark is well guipment of the Bittaford Play and additional play equipment would enhance this popular facility. The Parish Plan identified a need for more recreation facilities for older children, with children up to 16 identified as being most in need of more local outdoor sports facilities. South Brent Recreation field showers and cricket the provide heating and ventilation to the Pavillion changing rooms at the South Brent Recreation Field making the rooms fit for purpose and encouraging use by a wider range of the community. In addition the application includes request for funding to purchase cricket nets to support the sucess of the cricket team which is now part of the Devon Cricket League. Pub is the hub in Hall, Shaugh Prior An innovative project at Shaugh Prior to develop the hall into a community hub following the local pub, which was not only a valued community focal point but also home to childrens play area. The application is for the development of bar area in the hall, revamp of disabled toilet, new fencing to car park area and provision of outside community recreational area.
