**Date:** 27 July 2017

**Title:** Q1 2017/18 Performance Report

**Portfolio Area:** Strategy & Commissioning

**Author:** Jim Davis, Specialist - Performance & Intelligence

**Presented by:** Cllr Keith Wingate

**RECOMMENDATION**

**That Members note the performance levels against target communicated in the Balanced Scorecard and the performance figures supplied in the background and the exception report.**

## **Executive summary**

- 1.1. Performance measures for Quarter 1 have been generally good with the majority of issues highlighted as temporary in the previous report having been overcome.
- 1.2. Q1 performance had 1 measure at 'Red': % calls answered in 20 seconds.
- 1.3. Due to the meeting schedule, waste measures haven't been reported on as the information from DCC and third parties comes in later than other measures.
- 1.4. Planning determination performance in Q1 was above target for all types of applications for the sixth successive quarter.
- 1.5. New dashboards have been developed to display information in an easy to understand way. These are available online from any web-enabled device and can be used to monitor performance in between the O&S reporting cycle. There is a regular update of the previous month's figures that occurs by the 3<sup>rd</sup> Wednesday of the month, for SLT to keep on top of performance issues.

## **2. Background**

- 2.1. The current set of indicators came from a review of all Performance measures which was undertaken by a Task & Finish Group. The format has changed to allow better viewing in black & white and to include target information to provide context.
- 2.2. The balanced scorecard had four areas including information about the T18 Programme. The programme has moved past the active project management phase so these measures are less informative and new measures will be developed focusing on website transactions and uptake of online services.
- 2.3. The new web-based performance dashboards provide monthly up-to-date information to provide context against the report that comes to Committee and gives access to a much larger range of data if desired.

## **3. Outcomes/outputs**

- 3.1. **Appendix A** is the balanced scorecard – this contains the high level targeted performance information.
- 3.2. **Appendix B** is an information and exception report. This contains the data only performance information for context and the detail of the targeted measures which have fallen below target in the quarter being reviewed.
- 3.3. **Appendix C** contains the description of the targets chosen for the Balanced Scorecard
- 3.4. Covalent Dashboards are accessed via a web-link and users have access to more than one dashboard. All the dashboards can be

'drilled into' for more information and they can be viewed on any web-enabled device, smartphone or ipad.

#### 4. **Options available and consideration of risk**

- 4.1. O&S reporting could be dealt with completely through dashboards or in conjunction with reports, with the report element focusing on other areas such as management comments rather than data.

#### 5. **Proposed Way Forward**

- 5.1. Feedback from Members is encouraged to improve dashboard usability and usefulness to aid Members fulfil their scrutiny role. Further training sessions will be organised and communicated through the Member bulletin.
