Dear Naomi,

I wish to express my objection to this application on the basis of all four relevant counts of objection.

The hours that alcohol sales are already permitted are already more than adequate to provide service to purchasers.

To increase these hours would not improve this service at any of the branches of Morrisons, instead it would be detrimental to local quality of life due to potential public disturbance caused by sales during unsociable hours and unnecessary extended exposure of children to alcohol sales.

The legal availability is generally accepted to be one of the main controls on levels of alcohol consumption and harm.

yours sincerely

Jacqi
