Dear Council

I wish to express my disagreement to Morrison's supermarket having any extension to their hours of license or their opening hours.

I feel this way because there is already ample opportunity for the purchasing of alcoholic beverages, this is quite obvious by the numerous piles or should I say splattering's of vomit on the pavements in the vicinity of my home. One of which had to be transgressed by walking on the road as it was such a large splattering. This particular splash of vomit remained for a whole week before some rain washed most of it away, as the council has no interest in cleaning the pavements even though one is paying admirably for this service. I might also add that Morrisons themselves do not clean the pavements around here (which is where this particular carotty splash existed for a week) perhaps they should do so as it is quite likely that they sold the unnecessary alcohol to the person that emptied their stomach contents on this pavement that I need to pass so as to attend to my business within the town. Oh no, this is not an isolated incident either.

As alcohol is totally unnecessary to one's health and even detrimental to it I suggest that the application is refused. This is only a small town, Morrison's is close to people's homes and as such Morrison's has a duty of care towards the people living close by to provide an overall balance of service and thought to all their customers and neighbours..... They should not think to sell alcohol at any hours outside of those they do now, we need to stamp out this moronic alcoholism that is rife in this country and within Kingsbridge, not encourage it by making alcohol ever more accessible.

Yours Sincerely
Derek Royce
