## 1. BACKGROUND

- 1.1 The 2013/14 budget was set at a break-even position.
- 1.2 The Harbour's trading accounts have now been finalised, pending external audit certification during August 2014. The accounts have been prepared on an accruals basis and take account of all relevant income streams and expenditure items. The final outturn position for the year is a surplus of £93,910.

1.3 The accounts show how funds have been used to deliver services and form an essential part of public accountability. Inevitably, circumstances that arise throughout the year often differ from the budgeted position, giving rise to financial variations. However, the overall impact is mitigated by continuous monitoring and timely decision making where corrective action is required.

The generated surplus will be incorporated into the General Reserve. An analysis of the closing position of each of the Harbour reserves is included at Appendix B.
